#### 5. Sharing your Personal Data (and transfers outside of the EEA, the UK or other GDPR jurisdictions)

Octagon will only use or disclose your [Personal Data](#) for the purpose(s) it was collected and as otherwise identified in this GDPR Privacy Policy.

**Sharing outside Octagon:** Personal Data may be provided to third parties, including anti-fraud organizations, legal, regulatory or law enforcement authorities in cases of suspected criminal activity or contravention of law, for the detection and prevention of fraud, or when required to satisfy the legal or regulatory requirements of governments, regulatory authorities or other self-regulatory organizations, or to comply with a court order or for the protection of Octagon’s assets (for example, collection of overdue accounts).

**Business sale or reorganization:** Over time, Octagon may buy new businesses or sell some of its businesses. Certain countries outside the EEA have been approved by the European Commission (i.e., European Commission declared an “Adequacy Decision”) as providing essentially equivalent protections to EEA data protection laws and therefore no additional safeguards are required to export Personal Data to these jurisdictions. Additionally, The UK has developed and implemented policies and processes for reaching adequacy agreements with certain countries outside of the UK. In the absence of an Adequacy Decision or adequacy agreement, a transfer can take place through the provision of appropriate safeguards. Octagon will establish legal grounds justifying such transfers, such as contractual clauses, or other legal grounds permitted by applicable legal requirements.

Please [Contact Us](#) if you would like to see a copy of the specific safeguards applied to the export of your Personal Data.

For example, Octagon may retain certain transaction details and correspondence until the time limit for claims arising from the transaction has expired, or to comply with regulatory requirements regarding the retention of such data. When Personal Data is no longer needed, Octagon

either will irreversibly anonymize the data (and Octagon may further retain and use the anonymized information) or securely destroy the data.

---

If Octagon does not agree to make the amendments that you request, you may challenge Octagon's decision as described in [Contact Us](#).

---

##### *Security over the internet*

No data transmission over the Internet or website can be guaranteed to be secure from intrusion. However, Octagon maintains commercially reasonable physical, electronic and procedural safeguards to protect your Personal Data in accordance with data protection legislative requirements.

All information you provide to Octagon is stored on its or Octagon's subcontractors' secure servers and accessed and used subject to Octagon's security policies and standards. Where Octagon has given you (or where you have chosen) a password which enables you to access certain parts of Octagon's websites, you are responsible for keeping this password confidential and for complying with any other security procedures of which you have been notified by Octagon. Octagon asks you not to share a password with anyone.

An explanation of the scope of the grounds available is set out below. Octagon notes the grounds Octagon uses to justify each use of your information next to the use in the “Uses of your Personal Data” section of this policy.

*These are the principal legal grounds that justify Octagon’s use of your information:*

## **GDPR Privacy Policy ANNEX C: Processing for fraud prevention and detection purposes**

- 1.1 Before Octagon provides its services to you, Octagon undertakes checks for the purposes of preventing fraud and money laundering, and to verify your identity. These checks require Octagon to process personal data about you.
- 1.2 The personal data you have provided, Octagon has collected from you, or Octagon has received from third parties will be used to prevent fraud and money laundering, and to verify your identity.
- 1.3 Octagon, fraud prevention and debt collection agencies may also enable law enforcement agencies to access and use your personal data to detect, investigate and prevent crime.
- 1.4 Octagon processes your personal data on the basis that Octagon has a legitimate interest in preventing fraud and money laundering, and to verify identity, in order to protect its business and to comply with laws that applies to Octagon. Such processing is also a contractual requirement of the services or financing you have requested.
- 1.5 Fraud prevention agencies can hold your personal data for different periods of time, and if you are considered to pose a fraud or money laundering risk, your data can be held for up to six years.

### **Automated decisions**

- 1.6 As part of the processing of your personal data, decisions may be made by automated means. This means Octagon may automatically decide that you pose a fraud or money laundering risk if its processing reveals your behaviour to be consistent with money laundering or known fraudulent conduct, or is inconsistent with your previous submissions, or you appear to have deliberately hidden your true identity. You have rights in relation to automated decision making: if you want to know more please [contact us](#).

### **Consequences of processing**

- 1.7 As a consequence of processing, if Octagon, or a fraud prevention agency, determine that you pose a fraud or money laundering risk, Octagon may refuse to provide the services you have requested, or to employ you, or Octagon may stop providing existing services to you.

A record of any fraud or money laundering risk will be retained by the fraud prevention agencies, and may result in others refusing to provide services, financing or employment to you. If you have any questions about this, please [contact us](#).

Whenever fraud prevention agencies transfer your personal data outside of the EEA, UK, or other GDPR jurisdiction as applicable, they impose contractual obligations on the recipients of that data to protect your personal data to the standard required in the such GDPR jurisdictions. They may also require the recipient to subscribe to 'international frameworks' intended to enable secure data sharing.
